

Notice to Customers

It is imperative that all customers fully participate in the recycling program properly. When contaminated items are placed in recycling carts, entire loads are rejected, resulting in larger disposal costs for our company. We do not want to do this, but if contamination continues, we will have no choice but to pass these additional costs on to our customers. Your cooperation ensures a cleaner environment, lower costs, and a successful recycling program for everyone. Thank you for your commitment to recycling right.
